PUBLIC NOTICE

Level 3 Water Restrictions

The level of Chinaman Creek Dam is below 50% and as such, Council are moving to level three (3) water restrictions.

These restrictions are effective from Monday 12 November 2018 and apply to the townships of Cloncurry, Dajarra and Kajabbi.

What do level three water restrictions mean?

- Odds and even sprinkling, including micro-spray and drip systems, only between 5:00am and 7:00am and 8:00pm and 10:00pm.
  *Even property numbers: Tuesday, Thursday, Saturday
  *Odd property numbers: Wednesday, Friday, Sunday

- No sprinklers or unattended hoses permitted on Mondays
- Fountains and water ornaments can only operate if they recycle water
- Washing privately owned cars, boats and other vehicles is permitted
- Water must not be used to clean paved or concreted areas, except for health and safety reasons
- Non-compliance with these restrictions may incur a $261.00 infringement notice

The Water Restrictions Policy makes provisions for certain circumstances where an exemption or amendment to water restrictions is sought. Applicants shall apply to Council for each individual property and must outline the reason. Approved applications will be issued with an Exemption Permit upon approval. Applications may be made for watering new turf, requests to vary watering outside of restricted hours, and for filling newly-constructed pools and spas for the first time.

Any properties using bore water or rain water are exempt from these restrictions. These properties must have signs stating so in clear view on the property frontage.

Should you have any queries in respect of this matter, please contact Manager Planning and Environment, Megan Anderson, at this office.

Yours faithfully

David Bezuidenhout
Chief Executive Officer
Cloncurry Shire Council
