

PUBLIC NOTICE

Cloncurry Overnight Water Outage

12 & 13 December 2024

Coppermine Creek Bridge Water Mains Works

Cloncurry Shire Council will be carrying out water service repair works to the town's water main that crosses Coppermine Creek over two consecutive nights this week.

WATER OUTAGE SCHEDULE	
Night 1	11:00pm Thursday, 12 December 2024, to 3:00am Friday, 13 December 2024
Night 2	11:00pm Friday, 13 December 2024, to 3:00am Saturday, 14 December 2024

All properties in the Cloncurry township on town water will lose water during the works. See Figure 1.

Once the water is turned back on, pressure in the line will be increased gradually. Water pressure should be back to normal by 5:00am each morning after the night works.

Following the works, the lines will be flushed for 15-20 minutes until the water is clear. If you notice discoloured water, run the tap nearest the water meter for up to 5 minutes until the water runs clear. Then run the tap inside for up to 5 minutes, until the water runs clear.

Should you have any questions or concerns in respect of this matter please contact Council's Administration Office, on 07 4742 4100 or council@cloncurry.qld.gov.au
