

PUBLIC NOTICE

Dajarra Township - Water Restrictions No hoses, sprinklers or outside use

Council is looking to determine causes of current low levels of treated water storage in Dajarra. This has partially been caused by recent electrical supply issues, but we are also seeking to confirm if there are any issues contributing to demand outstripping supply. To help determine what is going on, we need to implement temporary water restrictions.

The following water restrictions are in place from:

- 10:00am, 27 February 2024
- 5:00pm, 1 March 2024

DAY	WATERING RESTRICTIONS
Tuesday, 27 February	No hoses, sprinklers or outside use
Wednesday, 28 February	No hoses, sprinklers or outside use
Thursday, 29 February	No hoses, sprinklers or outside use
Friday, 1 March	No hoses, sprinklers or outside use

PLEASE CONTACT COUNCIL IF YOU NOTICE ANY LEAKS OR UNUSUAL WATER USE/ACCESS.

Council appreciates the community's understanding and patience during this time. We're hoping this is the only restriction required to confirm current issues.

Philip Keirle

Chief Executive Officer
