

# PUBLIC NOTICE

## Chinaman Creek Dam Recreation Area Closed for Upgrade Works Extended Until January 2023

Cloncurry Shire Council wish to advise that, due to some issues with out of town sub-contractors (playground construction + road sealing), the upgrade works to the Chinaman Creek Dam Recreation Area have been delayed. This means the dam recreation area will be closed to the public until the end of January 2023.

For the safety of the public and project contractors, Council will keep the Chinaman Creek Dam Recreation Area closed to the public.

Chinaman Creek Dam will still be accessible to the public via alternate access roads, that are suited to high clearance vehicles. Please refer to Figure 1 for more details.

The upgrades will include civil, building and landscaping works, as per the Chinaman Creek Dam Recreation Area Upgrade Project.

*Chinaman Creek Dam Recreation Area Master Plan*

It is expected contractors will undertake weekend and night-time work to reduce the closure period.

Council would like to thank the community for their continued understanding and patience during these works. Should you have any questions or concerns in respect of this matter please contact the Senior Project Manager, Rithy Poch, at the Council administration office.

Philip Keirle

Chief Executive Officer

16 December 2022
